## PERFORMANCE PLUS

FOR CUSTOMERS WHO WANT MORE

### Why Use XL Synthetic Motor Oil?

Longer oil change intervals are increasingly becoming the norm. In Europe auto manufacturers routinely recommend drain intervals of 10,000 miles or more, and even here many manufacturers are increasing their drain interval recommendations or using oil monitoring systems to tell motorists when to change oil.

AMSOIL XL Synthetic Motor Oil with Extended Drain Boost is specifically formulated for motorists seeking the convenience of fewer oil changes, a spring and fall oil change program with no guilt and full confidence that the oil is doing its job. XL is the true peace-of-mind motor oil.

Next time you change your oil, ask for the AMSOIL brand. Find out for yourself why an AMSOIL customer is a customer for life.

*(Always check your engine oil fill level at regular intervals between oil changes.)*
